

ADVISORY FOR INDIAN STUDENTS COMING TO CANADA FOR EDUCATION

Do's

1. Please check the credentials of the university / institution before applying for admission and before making any payment towards admission / tuition fee etc. There are several instances where prospective students have made large payments to institutions which were not recognized by the Canadian Government. Their visa requests were turned down by the Canadian consular offices in India because of these reasons. Payments of fees etc. were also not refunded to them on various technical pretexts. There have been instances of some institutions being closed down. If necessary, make reference to the Indian Diplomatic Missions/ Posts in Canada. Key resource for prospective international students is the www.EduCanada.ca website. It includes content on how to plan studies in Canada, finding programs and costs, available scholarships and more. The site also includes resources on living and working in Canada, with information on student life, and Canadian culture, how to prepare a budget, etc. Other sites students may wish to consult are those maintained by education sector associations - **Universities Canada** (<https://www.univcan.ca/>) and **Colleges and Institutes Canada** (<https://www.collegesinstitutes.ca/>), which contain information about post-secondary institutions and programs in Canada. **The Canadian Information Centre for International Credentials (CICIC)** also keeps a Directory of Educational Institutions in Canada that contains the list of educational institutions currently recognised, authorized, registered and/or licenced by the competent authorities in the provinces and territories of Canada: https://www.cicic.ca/868/search_the_directory_of_educational_institutions_in_canada.canada
2. Ensure that after getting admission in the College/University, necessary immigration formalities are completed. (There have been instances where Student Visa were not extended and the student was asked to leave Canada)
3. Get registered with the nearest Indian diplomatic Mission/Post as soon as possible upon arrival in Canada https://portal2.madad.gov.in/AppConsular/user/RegistrationBaseAction?request_locale=en&userType=Student
4. Obey local laws to avoid any trouble.
5. Have medical insurance, as cost on medical treatment is prohibitive in Canada.
6. If you are flying for the first time, visit the website of the airport to familiarize yourself so that you do not miss the connecting flight as the time between connecting flights may be very short.
7. If you are staying in an intermediate city for more than three days or 72 hours before you reach your destination, then please do reconfirm your seat.
8. English testing on line with TOEFL is mandatory for all students admitted to educational institutions.
9. Accommodation, both in the hostel or outside, is very expensive.
10. It is not necessary that for Post Graduate courses equivalence of Indian degrees will be accepted. This may be checked before admission procedure is started.

11. Students are not granted open work permit by the authorities here. They are generally allowed to work for up to 20 hours a week. However, it is not easy to find part-time work.

12. Weather in Canada is very extreme with winter season lasting from October to April with temperature going down to -25C to -30C with heavy snow fall.

13. Though Canada is a multi-cultural society, there is a vast cultural gap between India and Canada. This results in students feeling lonely and hence sick during the first months after their arrival.

14. Distance between India and Canada is another factor which should be kept in mind. Even in an emergency, it takes more than 25 hours to reach India.

15. Visit the website of the city/cities of your destination. Most of the cities have got their websites. It gives the details among other things of the locations of the colleges/universities and recreation facilities. Website of Vancouver city is : <http://city.vancouver.bc.ca/>, Calgary : <http://www.calgary.ca/>, Edmonton : <http://www.edmonton.ca/>, and Saskatoon : <http://city.saskatoon.sk.ca/>

Don'ts

1. Not to carry prohibited items such as drugs, weapons, etc.
2. Take personal precautions. Do not be friendly with strangers, and others whose antecedents are not know to you.
3. Keep away from illegal activities, including gang activities.
